A fuller service report was expected at the upcoming membership meeting.

## **VI. Unfinished Business – President Gutierrez**

**a.** Bylaws Follow-Up Chairman Robert Arciola reported that revisions to the proposed bylaw amendments had been completed and submitted to the membership for review ahead of the upcoming membership meeting. The Board discussed procedure for presentation and adoption, including whether the amendments should be introduced by article or section. President Gutierrez stated he would coordinate with legal counsel, Josh, on the proper motion and voting format and would also ask counsel to review prior related email discussions. The Board anticipated the next membership meeting would serve as the second reading, with possible adoption at that time.

### **b. Progress on Digitizing VACCC Records**

No update was provided on digitization of VACCC records.

### **c. Membership NFP Status**

The Board reaffirmed its intent to retain the 501(c)(3). Discussion centered on the need for a separate governance structure to manage the nonprofit while maintaining alignment with VACCC. Board members discussed:

- the likely need for separate bylaws
- creation of a formal governing structure
- the possibility that the president should be a delegate
- the value of having a treasurer or similar officer with CPA or accounting experience
- the Illinois VFW foundation model as a possible reference
- inconsistencies in the organization's naming across IRS and state records, with possible future alignment under a "doing business as" structure

No final structural action was taken.

### **d. Office Space at Jesse Brown VA and Hines VA**

President Gutierrez reported that office space efforts at Jesse Brown VA and Hines VA were still in progress and expressed confidence that a continuing presence there was achievable. He also stated that discussions with Cook County may create an opportunity both to increase the budget and to accelerate the hiring process.

### **e. Union League Club Presentation Update**

President Gutierrez reported on the Building America's Future event at the Union League Club on March 2, 2026. VAC participated as an exhibitor alongside public entities including the Tollway, IDOT, CTA, MTA, and MWRD. He reported that several agencies and contractors have workforce initiatives that include veteran hiring expectations, creating a potential opportunity for VAC to serve as a workforce pipeline connecting veterans to employment and long-term stability. He also noted interest in having the Superintendent present VAC's work to American Legion and Union League audiences as visibility and donor engagement continue to grow

## **VII. New Business – President Gutierrez**

### **a. FY24 Cook County Auditor Inquiry / Audit Coordination**

President Gutierrez reported that the FY24 Cook County Auditor inquiry was underway and that discussions with the auditors had gone well. Topics included leadership, governance, budgeting, programs, and procedures. Board members discussed one area initially perceived as a shortfall: board development. The Board clarified that OMA and MVAA training provided through the Military Veterans Assistance Bureau qualifies as board development and is documented in the annual report.

The Board expressed its intention, once the audit is complete, to invite the auditors to a future membership meeting so the findings can be presented directly by the third party in the interest of transparency.

### **b. Building America’s Future Event – March 2, 2026**

This item was discussed in connection with the Union League Club update. Leadership emphasized the strategic importance of developing workforce partnerships tied to public-sector and contractor hiring initiatives, especially those involving veteran hiring expectations

## **VIII. Public Comment – President Gutierrez**

## **IX. Good of the Order. Several updates and discussion items were shared**

Additional employers were still being sought. President Gutierrez offered to connect organizers with public-sector contacts.
- Board Development: The ILEAD Trustee portal was recommended as a possible professional development resource for the executive board.
- OMA Certification Tracking: The Board discussed sending an email to members with the OMA certification link and having the Secretary retain certifications on file for compliance and FOIA readiness.
- External Benchmarking: Board members shared takeaways from another organization’s meeting, including bylaw examples, handbook materials, and VSO deployment practices based on demonstrated demand.
- Hines VA Meeting: Board leadership planned to attend a meeting at Hines VA the following day to discuss Building 217, the food pantry, and broader operational concerns, with the stated goal of helping drive improvement.
- Staffing/Budget Discussions: Additional comments reiterated that county-level discussions were ongoing regarding faster hiring and possible budget increases.
- Member Organization Updates: Board members discussed encouraging organizations to bring handouts or written materials for distribution at meetings instead of lengthy oral reports.
- Elections/Continuity: The Board discussed preparations for upcoming elections, including floor nominations and prepared voting materials by post. Members also reflected positively on the year’s progress and on continuity of leadership.
- Political Boundaries: The Board discussed recent election results involving veteran allies and concluded that official VAC communications should remain apolitical, with congratulatory outreach better made in a personal capacity.
